DETAILED ACTION

1. This communication is in response to amendment received on 11/12/03.
2. Applicant has cancelled claims 1 and 8. The applicant has added new claims 13 – 20.

Allowable Subject Matter

Claims 2 – 7 and 9 – 20 are allowed.

The following is an examiner's statement of reasons for allowance: As to claims 13 – 16, the prior art fails to show combining of the first and second response signals by performing a weighted summation of the first and second response signals. This feature taken together with the other limitations of the claims renders the claims allowable over the prior art. As to claims 17 – 20, the prior art fails to show a logging system including a processor coupled to the multiaxial induction tool determining combined response as a weighted sum of the VMD and the HMD response. This feature taken together with the other limitations of the claims renders the claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
